

Simon and Sandy Seahorse

Simon & Sandy Seahorse are cousins. They live in the ocean, along with a number of Animal House critters! They spend their days drifting from reef to reef, visiting their marine friends and loved ones. They can be found at night frequenting the ocean's hottest dinner spots as they are both foodies and are in the search of the best piece of sushi in the sea. Simon dreams of following the steps of their uncle, Sidney Seahorse, in documenting their foodie adventures on the "Underwater Food Fun" show on the Animal House Network.
