

# Clementine the Cow

Clementine is a friendly cow, who spends most of her days moo-ing with her herd about the news of the day and her critter friends. She's an exercise fanatic. Standing up and moving her tail are how she keeps fit. Her favorite form of exercise? Swatting flies, of course! She takes great pride in living in the suburbs of Portland and providing organic milk to residents! If you ever visit Oregon, Clementine would like to invite you to visit the Tillamook Cheese Factory.

Cow, Clementine
